Suitable for interior use. Suitable for mounting on a normally flammable surface.

These light fittings are only suitable for indoor use BUT NOT IN BATHROOMS OR UTILITY ROOMS THAT GENERATE EXCESSIVE MOISTURE.

When choosing location for your new LED Drawer Light ensure that the light will be installed on a solid surface.

Do not attach to surfaces which are damp, freshly painted or otherwise electrically conductive (e.g. metallic surfaces).

If in doubt regarding these installations, consult a qualified electrician.
