Pull-down mechanism for back of 450mm wall cabinet

See mounting instructions for installation specs

Applications

- Pull-down system for the rear of wall cabinets to maximize the storage space.

Advantages

- To be installed at the back of a wall cabinet, it maximizes the storage space and gives an immediate access
- With its 3 shelves, you can store many small items.
- Ergonomic handle all through the width of the cabinet makes it easy to pull-down or up.
- Weight capacity of 1.5 kg (3.3 lbs)
- Tested up to 30000 cycles
- Trendy alu grey color.
- To be used with a 450mm wide cabinet

Features

- Allows you to easily reach the frequently used objects while you cook.
- Takes very little space in your cabinet, but offers better ergonomics.
- The handle helps to easily pull the unit down or to lift it back up.
- Tested at 30000 cycles insure you for a long lasting product life.
