

CAB CABINET INSTALLATION SCREWS

SUPERIOR HOLDING POWER

The PowerDrive CAB screw features a self-tapping head which enables it to sit perfectly flush with the surface.

ADVANTAGES

- Oversized head provides 4 times the holding power of a conventional screw head
- Large diameter prevents screw head from pulling through the panel
- Easy self-drilling thanks to the type 17 point
- Perfect fit for FastCap 9/16" screw caps
- Universal size convenience with a #10 gauge (4.9 mm) diameter
- Zinc coated for corrosion resistance
